Data Analyst

Job Title: Data Analyst

Location: [City, State] | [Remote/On-Site]

Job Summary: We are looking for a Data Analyst to collect, analyze, and interpret data to help drive business decisions. The ideal candidate will have strong analytical skills and experience with data visualization and analysis tools.

Key Responsibilities:

- Collect, clean, and analyze data from various sources.

- Develop and maintain reports and dashboards using data visualization tools (e.g., Power BI, Tableau).

- Identify trends, patterns, and insights to support business strategies.

- Work with stakeholders to understand data needs and deliver actionable insights.

- Ensure data accuracy and integrity through regular quality checks.

Qualifications:

- Bachelor's degree in Data Analytics, Computer Science, Statistics, or related field.

- 2+ years of experience in data analysis or a related role.

- Proficiency in SQL, Excel, and data visualization tools (e.g., Power BI, Tableau).

- Strong analytical, problem-solving, and communication skills.
